Master of Public Administration

Department of Public Administration and Policy
2024-25

MISSION STATEMENT

The mission of the **AU Master of Public Administration** program is to instill the knowledge, skills, and values necessary to manage and lead with distinction in government and related organizations that serve the public good in the U.S. democratic context and abroad.

Goals/Objectives - We will achieve our mission by preparing students to:

1. **Apply acquired knowledge** about administration/management/leadership in contemporary public and related organizations and systems.
2. **Allocate administrative and programmatic resources** based on analytic decision making.
3. **Analyze administrative problems, craft solutions,** and communicate them effectively to relevant stakeholders.
4. **Incorporate a range of values** into administrative actions, including democratic/constitutional values, respect for the diversity of people and perspectives in the policy process, and administrative values such as responsiveness, accountability, effectiveness, and equity.

For the foreseeable future, the United States and other governments worldwide face the challenge of discerning how best to harness the energy and expertise of public servants, the passion and commitment of nonprofit organizations, and the dynamism and creativity of markets in the pursuit of democratic and constitutionally informed public purposes.

Through our teaching and unique location in Washington, D.C., we seek to help meet this challenge by enhancing the knowledge, professional skills, and leadership potential of our students in their public service careers.

We educate students entering, engaged in, and interacting with government agencies in the U.S. and abroad.

We treat administration and policy as interrelated subjects strongly influenced by the values of public service and democratic constitutionalism.

Through our research and civic involvement, we also seek to enhance what is practiced and taught in our field.

We seek to attract a diverse group of talented students. We encourage their active involvement in learning, research, and professional activity and strive to enhance their appreciation of the responsibilities of public service.

MPA PROGRAM CORE

The MPA degree program is built around 7 required core courses, 2 management electives from a list of options, and 4 electives or courses encompassing a selected area of concentration (though students are not required to name a concentration). The total program is comprised of 13 courses or 39 credit hours.

CORE REQUIREMENTS (21 credits)

1. PUAD 612 Introduction to Public Administration and the Policy Process (3)
2. PUAD 605 Quantitative Methods for Public Managers (3) **OR**
PUAD 601 Quantitative Methods for Policy Analysis I (3)¹
3. PUAD 616 Legal Basis of Public Administration (3)

 - Possibly other special topics courses (with approval by Advisor or Program Director)

ELECTIVE COURSES REPRESENTING AREA OF CONCENTRATION

4 courses (12 credits) – see attached pages.

INTERNSHIP

Students without a significant professional work background participate in either a for-credit or non-credit internship.² Students taking a for-credit internship complete PUAD 691 as part of the concentration; students taking a non-credit internship complete a survey on the experience.

PUBLIC ADMINISTRATION CAPSTONE EXPERIENCE

Assignments in the capstone course (PUAD 610), including a major management analysis paper, fulfill the university requirement for a capstone experience. The capstone course should be taken in the final semester of study and is offered in fall and spring semesters only.

¹ PUAD 601 and 670 should only be taken by MPA students planning a concentration in Policy Analysis; these courses are prerequisites for other policy analysis concentration courses. All others should take PUAD 605 and 630.

² Students with significant professional experience may apply to waive the internship requirement, with Program Director approval. Please contact your advisor to discuss if applicable.

MPA AREAS OF CONCENTRATION

Each student constructs his or her area of concentration, suited to his or her individual career goals. Students should consult academic advisors and department faculty for help in selecting concentration courses. Interviews with alumni and practitioners may also help students identify suitable subjects. Some students select established concentrations; others assemble courses around their own special needs. Students should plan their areas of concentration early in their programs, as some of the courses may be offered only once or twice during the overall period of study. Some areas of concentration offer an optional focus field - an additional layer of specialization - for interested students.

Students who follow one of the established concentrations in this booklet may have the concentration listed on their final transcript (for example, “Master of Public Administration with concentration in Nonprofit Management”). These concentrations are:

1. Nonprofit Management
2. Global Governance and Management
3. Public Management
 - Human Resources Management Focus
4. State and Local Management
5. Public Financial Management
6. Policy Analysis
7. Public Policy
 - Social Policy Focus
 - Education Policy Focus
 - Health Policy Focus
 - Environmental Policy Focus
8. Applied Politics
9. Race, Policy, and Administration
10. Cyber Policy and Management

MPA students may also develop a customized concentration with the approval of their academic advisor. This can be a “mixed concentration”, with courses drawn from suggested courses of two or more concentrations listed here, and/or a “create-your-own” concentration, a set of any four elective courses approved by their advisor. Students may self-title their customized concentrations. Please note that only the “official” MPA concentrations above will be posted to a student’s official transcript. However, all students are highly encouraged to list their areas of concentration on their resumes to signal their areas of focus and expertise to employers.

In addition, by including courses taken through the Consortium of Universities of the Washington Metropolitan Area, students may be able to develop a concentration in an area not offered at AU. For additional information, consult your academic advisor.

Please note that while we *strongly encourage* students to choose a concentration, **students are not required to name a concentration** at any point during their time in the MPA program.

Note: Course numbers and titles may change.

1. NONPROFIT MANAGEMENT

Faculty Advisors: Professors Lewis Faulk and Khaldoun AbouAssi

Nonprofit organizations play a substantial role in the formulation and delivery of public services. This concentration introduces students to a variety of general management practices used in the nonprofit sector: defining organizational missions, building effective governance structures, acquiring resources, maintaining high standards of fiscal, legal, and professional accountability, managing human resources, and thinking strategically. More broadly, this concentration educates students in the many administrative challenges faced by small community-based or large professionalized organizations in today's "networked economy" where organizations increasingly interact, compete, and collaborate with other service providers, policymakers, and regulators.

Required Course (3 credits)

- PUAD 681 Managing Nonprofit Organizations (3)

Suggested Courses/Recent Offerings to Complete Requirements:

- PUAD 608 Comparative Administrative Systems (3)
- PUAD 613 Global Governance and Public Policy (3)

2. GLOBAL GOVERNANCE AND MANAGEMENT

Faculty Advisors: Professors Khaldoun AbouAssi and Sheeling Neo

Global Governance and Management provides a comparative perspective on how policies are made and services are delivered in non-US contexts. With a specific focus on low and medium income countries, the concentration helps students understand the nature of management responsibilities that bridge different cultures, focusing on how public and nonprofit organizations interact to identify, understand, and address problems within or across different national contexts. The courses provide the students with the management and analytical skills necessary to take leadership and management roles in governments, or organizations abroad, or any organization that delivers services globally.

Required Courses (3 credits)

1. PUAD 608 Comparative Administrative Systems (3)
OR
2. PUAD 685 Development Governance and Management (3)

- PUAD 685 Race, Policy and Administration (3)

Human Resources Management Focus

Successful leaders of public service organizations recognize the importance of managing and motivating their workforces. They know that developing human capital is critical for promoting organizational effectiveness. This focus area helps students to understand the strategic role of human resources planning, develop skills to prepare employees for change, and improve management and employee relationships.

Additional Required Course for the Human Resources Management Focus (3)

- PUAD 665 Managing Human Capital Assets (3)

Courses not offered by the Department of Public Administration and Policy may not be offered regularly and are subject to change. Please consult your advisor if you are interested in taking one of these courses.

4. STATE AND LOCAL MANAGEMENT

Faculty Advisors: Professors Jocelyn Johnston and David Schwegman

The State and Local Administration concentration prepares students for the political and administrative intricacies of delivering public services in an increasingly intergovernmental context. Students are encouraged to include at least one relevant policy course and as many budgeting/finance courses as possible.

Required Course (3 credits)

1. PUAD 609 State and Local Management (3)

5. PUBLIC FINANCIAL MANAGEMENT

Faculty Advisors: Professors David Schwegman and Marquise McGraw

Program analysts, financial officers, budget officers, and financial analysts are found throughout, and at all levels of government (national, state, and local). They administer and design programs, prepare and analyze budget proposals, evaluate programs, forecast revenues, collect taxes, allocate monies, advise legislators, inspect programs, and prepare financial statements. The Public Financial Management concentration helps to prepare students for the many responsibilities involved with the management of public programs, operations and funds.

Required Course (3 credits)

1. PUAD 633 Budgeting and Financial Management (3) (Core course)

Suggested Courses/Recent Offerings to Complete Requirements:

- PUAD 619 Ethical Issues in Public Policy (3)

Other options include courses in the Kogod School of Business, the Department of Economics, or other units, with approval of MPA Program Director.

*indicates prerequisite

6. POLICY ANALYSIS

Faculty Advisors: Professors Seth Gershenson, Dave Marcotte, Valentina Duque, and Marquise McGraw

This concentration aims to equip MPA students with a set of cutting-edge, quantitative skills that can be used to conduct policy-relevant data analysis. Coursework includes training in advanced quantitative methods, program evaluation, and/or cost-benefit analysis. Students who wish to work in roles such as research assistants, research associates, program evaluators, data analysts, or who are considering advanced study in public policy or a similar field, may find this concentration to be of interest.

Required Courses (12 credits)

1. PUAD 602 Quantitative Methods for Policy Analysis II (3)
 *(PUAD 601. *Note: PUAD 605 generally should not be used to satisfy this prerequisite, but can count in this way if necessary.*)

8. APPLIED POLITICS

Faculty Advisors: Professor Candice Nelson and Liz Suhay

The Applied Politics concentration incorporates two fields offered through the school's Department of Government. The first field covers politics, campaign management, and lobbying and serves students aiming to involve themselves as managers in the effort to influence the course of government through the electoral or political process. It draws upon the educational programs offered by the school's Campaign Management Institute and Center for Congressional and Presidential Studies. The second field encourages students to think strategically about the challenges confronted by policymakers concerned with women's issues. It addresses women, public policy, and political leadership and draws upon course work offered through the school's nationally renowned Women & Politics Institute. Students are welcome to choose courses in one field or the other, or from a mix of both areas.

Any of the courses listed below satisfy this concentration; they are listed in optional (not required) areas of focus.

Suggested Courses/Recent Offerings to Complete Requirements:
